🛠 SKILLS

HTML5 CSS3 JavaScript ReactJs Tailwind CSS Bootstrap5

👤 SUMMARY

Experienced Frontend Developer with 1.2+ years of experience in HTML, CSS, and ReactJS, proficient in creating beautiful websites using Tailwind CSS. Skilled in building chrome extensions, passionate about creating engaging user experiences, and always eager to learn and adopt new technologies.

💼 WORK EXPERIENCE

JavaScript Developer   Sep 2022 - Mar 2023
Platify Technologies Private Ltd, Bangalore

Responsible for building Chrome extensions in JavaScript and scraping data points for analysis. I have experience working with data, drawing insights from it and finding patterns to improve the microservices. My experience has enabled me to develop an understanding of web development and the practical applications of data analytics. I am comfortable working with complex data sets and solving complex problems.

- Technologies : React Js, JavaScript, Google Cloud Platform and Google Sheets.
- Created multiple microservices for better optimization of the website.

Financial Analyst   Sep 2020 - Aug 2022
Clover Security Private Ltd, Pune

- Analyzed and monitored statistical data trends.
- Supervised accounts receivables and accounts payable for the gains.
- Monitored daily revenue, risk and working capital movements.
- Participated in conference calls and meetings and interacted with key leaders.

Junior Web Developer   Sep 2019 - May 2020
iEnergizer, Noida

- Applied knowledge of JavaScript and Object-Oriented Programming to create successful designs.
- Oversaw technical issues and troubleshooting requests to resolve surfaced problems.
- Collaborated with graphic design personnel to integrate images as basic site components.
- Built website interfaces with HTML and CSS.

🎓 EDUCATION

Bachelor of Computer Science Engineering : CSE: CSE   Jun 2015 - Aug 2019
CGPA: 6.7
Chandigarh University

Intermediate XII: PCM with Computer Science   Apr 2013 - May 2014
91%
City Montessori School

High School X: Science with Mathematics   Apr 2011 - May 2012
City Montessori School   88.2%

🔷 PROJECTS

Personal Portfolio   Apr 2023 - Present

- Deployed on **https://zesty-hummingbird-1a9a9a.netlify.app/**
- The portfolio uses React's useState and useEffect hooks for state management and side effects respectively.
- I also used the React Scroll library for smooth scrolling on the website.
- To ensure the website is responsive on different devices, I used the Tailwind CSS framework.
- The portfolio showcases my skills and accomplishments in an attractive and user-friendly way.
- By using React, the website is dynamic and interactive, enhancing the user experience.
- With the help of Tailwind CSS, the portfolio is visually appealing, functional, and accessible.

Restraurant Web Page   Mar 2023 - Apr 2023

- Deployed on **https://masterchef-flame.vercel.app/**
- Have created a restaurant web page using ReactJS.
- The page is fully responsive, meaning it can adapt to different screen sizes and devices.
- Have used React hooks for managing state, which provides an efficient way to manage component-level state.
- The use of React state management helps to keep the page's data in sync with user actions and helps provide an interactive experience.
- The page showcases the restaurant's menu, hours of operation, contact information, and other essential details.
- By using React, the web page is fast and dynamic, enhancing the user experience.
- Overall, have created a professional-looking restaurant web page that is easy to use and provides all the necessary information for potential customers.

Techstar Website   Feb 2023 - Mar 2023

- Deployed on **https://techpro-alpha.vercel.app/**
- Have built a technology solutions website using ReactJS, a popular front-end library for building user interfaces.
- The website is fully responsive, meaning it adapts to different screen sizes and devices.
- To streamline development and create a consistent UI, you have used Chakra UI, a popular open-source component library for React.
- The website showcases your technology solutions and services, providing potential clients with an overview of your offerings.
- Overall, have created a professional-looking website that effectively showcases your technology solutions and services.

Movie World RESTful API   Jan 2023 - Feb 2023

- Deployed on **https://movie-world-virid.vercel.app/**
- Have experience with RESTful API, which allows you to retrieve and manipulate data using HTTP requests.
- The web page is fully responsive, meaning it adapts to different screen sizes and devices.
- The web page showcases information about movies, including movie posters, ratings, release dates, and synopses.
- By using React, you have created a fast and dynamic web page that enhances the user experience.

⊞ HOBBIES

- Interested in the stock market and enjoy following the latest trends and news in the industry.
- Have a YouTube channel with over 4k subscribers, which suggests that I enjoy creating and sharing content on topics that I am passionate about.
- Have a talent for solving Rubik's Cubes and have won prizes for doing so in college.
- Have built cryptography applications as side projects during my college years, suggesting that I have an interest in computer science and security.
